## THE CLUB

**Balloons for Sale**

There are several fascinating things you can do with this picture of and his balloons. You will have to believe a little and think and a little, but that's fun.

First make believe there is a star in the center of each balloon. Next guess what numbers are in the center of each balloon.

If you choose the correct num-

they will add up to twenty-nine. Same numbers can't appear more once.

Make believe, that the balloon is about to sail away is the of all the others. On it is a number which if it multiplied each of the numbers in turn would allow to remain unchanged.

**A Doll Carriage**

The diagram shows two parts of a doll carriage. On the left is a rectangular box with a lid. The lid is labeled "Box Lid" and the front face is labeled "FIGURE 1". On the right is a separate piece labeled "Carriage Top—Figure 3", which is a trapezoidal shape with a curved bottom edge.

FIGURE 2

Cut figure one on dotted lines. You

Punch a hole at each corner of the cloth a hole in each of four milk boxes. Push a wire through the hole in a milk box and through the hole in the cloth. Do this at each of the four corners. The wire will be in place and your carriage is ready to trace the pattern given here without all the dotted lines and dots.

**LIKELY IN MAINE, FOOD SPECIALIST SAYS**

In Maine, so far as is known, the soil is not contaminated with Bacteria Botulinum as it is in some parts of the country and there have been very few cases of botulinus poisoning in the state," said Dr. E. Wood, foods specialist, University of Maine, in speaking recently of measures to prevent contamination of the housewife taking sanitary precautions about her canning. "She continues to be sure to boil non-acid vegetables ten minutes before using and to use only the best quality products that show no signs of spoilage, she need have little concern of this deadly poison."

The use of the pressure cooker is strongly recommended for canning non-acid vegetables such as greens, string beans, peas, asparagus, and corn. The food canned under steam pressure is heated to a much higher temperature than by the hot water bath method. This reduces the danger of botulism by heating in less time than is needed in the hot water bath is used.

Further precaution against botulism bacteria may be taken by adding all amount of acid to the food canning. This increases the effectiveness of the heat in destroying organisms. One teaspoon of vinegar or lemon juice added to each jar of vegetables will shorten the

Canning budget, but do not forget the green, leafy vegetables and the root crops stand on top of the list in relative importance so far as vitamins are concerned. They should be eaten in such quantities as to allow at least two servings of each per week throughout the winter months."

Various articles printed in the Portland Sunday Telegram always state that "Camp Wigwam" is located in an adjoining town of Harrison. Celebrated August Birthdays

Wednesday, August 19, was a gala day for the ladies of George M. Knight Relief Corps. The birthdays of four members occurring in August, an invitation was accepted from Mrs. Ethel Jones to celebrate with a picnic at her home, Pleasant View Farm. The place is well named as there is not only a pleasant but a magnificent view.

The day was ideal and twenty assembled to enjoy it. Mrs. Lottie Morse, Mrs. Myra Cheever and Miss Winslow Kilgore, with their cars, furnished transportation, Miss Kilgore making two trips.

The morning was pleasantly spent in visiting and strolling about the farm, and at noon all were ready to do justice to the beautiful picnic dinner, which was served under a mammoth maple, whose thick foliage gave abundant shade. Beautifully decorated cake with the magical letters, W. R. C. and the date was presented by the hostess. She also served tea, coffee and orangeade. All are looking forward to another invitation next year.

Ernest Grover, Elmer Saunders, Leslie and Isabelle Jones went cranberrying to the top of the mountain, Sunday. They each got a nice lot of berries.

Merritt Savin has a small crop of pears this year. The pear crop is reported small in nearly all places this season. Mr. Savin has begun picking them as they are ripening fast this warm weather.

We have been having lots of good hay weather and many are waiting more like it as oats are coming on fast and good weather is needed to secure the crop. The small rains we have had made the fields green and fresh since the hay crop has been taken off. Brooks are getting low and we hope for some heavy rains before cold weather sets in to fill springs and wells for a good supply for winter use.

Don Brown has bought a Ford runabout of Stanley Lord of North Waterford, with which he goes to his work on the road. He and Harold Canwell went to South Waterford with it and called on Theodore Brown and other places, Sunday morning.

The boys were returning about 1:15 a. m., from a visit in Poland and driving less than thirty miles an hour because of fog. Goodwin was asleep and curled up on the front seat so escaped a shower of glass from the windshield. ### NORTH BRIDGTON

Card Party—Guests Visited Kiwanis Club—Much Anticipated Picnic Enjoyed.

Each year the guests at Wilbur's strive to do something for the town library. In past years, concerts, and musical sales and baseball games have been the means of raising funds to buy books. This time a community card party was the elected method. Mrs. Snyder started the movement early in the season and enlisted the help of Mrs. Harry Moller. Shortly things were under way and the card party assumed definite shape.

Mrs. Snyder gathered armloads of flowers and spent much time in arranging corsages and old fashioned nosegays, which were to be the prizes.

Mrs. Moller and Mrs. Odenat canvassed the town for subscriptions and were very successful. They were ably assisted by Mrs. Creasey of Princeton, N. J. Mrs. French of Long Lake Lodge marshalled her colony in force to the festivities. The door prizes consisted of a "hobnail" glass confectionery and a "hobnail" glass pitcher, donated by Mr. H. Hillier of Philadelphia and Dr. Theopold of Seattle, also of Philadelphia. There were sufficient table prizes to present to the winners of each table. Refreshments were sold by "Bud" Lawrence of Philadelphia, and Master Robert Weston of North Bridgton.

These parties are our expression, in a small way indeed, of the love we feel for Mrs. Wilbur, who has been more than a hostess to all. We feel that it behooves us all to hold up her hands in the forward movement for town progress.

Among the townspeople who lent their presence and support were Miss Ida Marsh, who entertained the Misses Hone and Miss Van Flech of New York; Mr. Bartlett, who entertained a party of three from Portland. The door prizes went to Dr. Brown and Mr. Hillier of Long Lake Lodge. A sufficient sum was realized to aid the winter work of the town library.

On Thursday, Dr. Rosi of Brooklyn, an enthusiastic Kiwanian, covered some of his guests to the meeting of the Norway-South Paris Kiwanis. They were Mr. Shnyder and Dr. W. Burrill Odenat of Philadelphia, Dr. Weston of New York and Harry Moller of Manhattan. They were vitally interested in this enthusiastic body of Kiwanians and much appreciated the spiritual and material hospitality afforded. Albert Bartlett showed films of India and a guest from New York entertained at the piano with selections from Wagner's "Trestan and Isolde" and a Sonata by MacDowell. The evening was a most enjoyable one.

Mr. and Mrs. Allen MacKenzie and children of South Paris and Mr. and Mrs. Howard Robinson of Bryant Pond were at J. A. MacKenzie's, Sunday.

Mr. and Mrs. E. L. Grover and family of Halifax, Mass., are at their camp.

Paul Grover spent the week end at home.

Mrs. Alice Holman of Bethel was the guest of Mrs. Eli A. Grover a few days last week.

Mr. and Mrs. Alfred Merrill of Watford, Mr. and Mrs. Frank Bartlett and Mrs. Dorothy Gordon of Bethel were at Guy Morrill's, Tuesday.

Mr. and Mrs. Herman Merrill and son were in town, Sunday.

Mr. and Mrs. A. Grover and son, Rupert, were at Gorham a few days last week.

The much anticipated picnic at Papoose Pond was a consummate success under Mr. Wilbur's guidance. We are so fortunate at this writing, at the geographical location of Papoose Pond because we were led there by such devoted and beautiful roads to be regaled by nature's choicest gifts. A Maine sunset over a Maine lake framed by Maine woods and hills that we cannot do justice to the subject. Suffice it to say that nothing was omitted to bring about the standard of former Inn picnics. Bathing, boating, horseshoes, singing and feasting.

Our host, Wilbur, recited a selection called "The early dramatic repertoire. Under the able leadership of Mr. Shnyder, Mr. Lawrence and Dr. Rasi, the program reached a happy climax, only marred when a bench loaded with overfed guests yielded and deposited the happy burden on the pine cone floor. The party counted noses and all being accounted for, we rode back through the cool "woody" roads to home and the welcoming fire.

The leaves are beginning to turn on the sugar maples and the veteran visitors of many Maine summers are reluctantly slipping their tentacles in to the autumnal Continent.
